

come as you are church!

08/08/08

To the Herbeque Team; Herbert & Danielle,

We firstly want to thank you for coming out to join us in celebrating our first Big Bounce Festival, What a day! It was a special day for us because it was a four year long dream being realized or you could say, 'born into the world' and you being there to witness it and help make it happen made it very special to us. Thank you!

I have said it before and now I am writing it down...the way you guys do food and present it, is out of this world. My dad is a five star chef and I grew up with only the best food, it had to smell good, look good and if the first two tests failed, there is no way I would even think about tasting it...This being my background you can understand it's a tall order to impress me when it comes to food.

When I first saw your tent I watched from a distance; The setup, display, excellence, smell, service was all there and then I saw you hand a plate to a customer, I was blown away to see the presentation. I know I have never seen food cooked outside of a restaurant with the quality and excellence that you do. I was drop jaw and an instant raving fan!!

At the festival I mentioned that I would have to taste the food before I could give you an honest review...and man it was the bomb, as my dad would say, "it makes your tongue slap your brains out!" The chicken was crispy, tasty and tender, the mac & cheese just the way I like it, I never eat beans, but I ate the whole portion you gave me and my wife was in the background giving me rave reviews about the turkey leg.

I definitely recommend you as a vendor to anyone wondering if they should have you at their event, in my opinion...what you do is better than 90% of the restaurants in our county.

It was a great pleasure meeting you and being able to encounter the Herbeque Experience. We give you the two thumbs up!!

Thanks again for celebrating with us, may the Lord bless the work of your hands and prosper you in every way.

Keeping it Pure,

Nicolas & Misty Khoury
