We would like to express our sincere and heartfelt appreciation for a most delicious and memorable company Christmas party meal.

All of us at Metro Fire agreed that, hands down, your bar-b-queue spread (*complete with all the trimmings*) was delectable, and possibly the most enjoyable to date. In fact, one week later (*with anticipation growing*) we defrosted what was left of your spread, and added our own "pot luck leftovers" to produce a most fabulous New Year's Eve (day) company luncheon.

Your professionalism and attention to detail were greatly appreciated and did not go un-noticed. Complete from the preliminary planning stage, to the overall presentation, to the delicious and wholesome nature of the food, and all the way through clean-up phase, your services were impressive to say the least.

We all look forward to using your services for future functions, *both company and private.*

Thank you, and best wishes from our family to yours!

Sincerely,

Christina Frates  
Branch Coordinator
