Good Morning.

We just wanted to let you guys know that the 2 racks of Herbeque's babyback ribs we had yesterday were excellent. My wife said it was the best she'd ever had and my son and I agree.

They tasted great and they were much bigger and meatier than any we've had at restaurants or bought and prepared ourselves, yet they were very tender.

I heated them up on the grill for about 20 minutes and brushed on some of Herbeque's tasty sauce and they disappeared very fast.

We'll certainly do it again and we wouldn't hesitate to recommend you guys to anyone looking for great ribs.
